

Free Interpretative Consultations with Meridian Valley Lab's Naturopathic Physicians

Leah Paz, ND

Terra Sowinski, ND, LM

Pushpa Larsen, ND

Michael Kaplan, ND

At Meridian Valley Lab, we are committed to you having the best possible technical assistance to support your clinical success. Our on-staff Naturopathic Physicians have extensive clinical practice experience and training in interpreting our portfolio of tests, particularly our 24-Hour Urine Hormone test.

Every profile you order from us comes with a free 30-minute consultation during which we will go through the report with you. We can suggest therapeutics and dosages based on your patient's clinical picture and help you formulate treatment in complex cases. In support of your clinical success, we work hard to keep up on the latest research in the fields of bio-identical hormone replacement therapy and food allergies, and meet regularly with Dr. Jonathan Wright to review cases and discuss promising new therapies.

How to Get Your Free Consultation

When you receive your test results from us, call our Customer Service to schedule a phone appointment with one of our physicians. Usually, a consult can be scheduled for the following day. Same-day consults are also possible depending on the physician's availability. We are committed to working with you so that you can support your patients' needs in a timely manner.

Written Interpretations

We can provide written interpretations for an additional fee. These are useful for the busy clinician or for those who co-manage patients with other physicians who are not familiar with our tests.

We at Meridian Valley Lab look forward to serving you and our community of doctors dedicated to helping their patients.

Help your patients get results. Help your patients get healthier.

"I appreciate your excellent consulting doctors that provide invaluable advice whenever we need it. You help me manage my most difficult patients."

-Nicole Ortiz, ND
Live Well Clinic, La Quinta, CA

"I have conferred with your consulting physicians several times regarding lab results for our patients and have found their explanations and knowledge to be extremely helpful. They go above and beyond the written explanations attached to the lab results."

-Dr. Stacie Han, ND, LAc
Holistic Health Clinic, Tacoma, WA

"I always get new enlightening insights with each consult."

- Stephanie Porter ND
